Secondary Road Plan Is Contemplated

TALLAHASSEE—A far-reaching plan to finance and build a system of secondary farm-to-market roads in Florida was unanimously endorsed by delegations from 63 counties meeting here last week. The other 4 counties were not represented.

The plan calls for the expenditure of \$36,700,000 during the next three years, including \$13,800,000 in 1950. As outlined, the plan provides for the paving and maintenance of 5500 miles of secondary rural roads with gasoline tax money and matching federal funds.

The State Road Department will surrender its control over the 80 per cent of surplus gas tax funds and the counties will turn over their 80 per cent share of the seventy cent gas tax to the program.

However, to assure federal matching funds the roads on which the money is spent must be approved by the Federal Bureau of Public Roads. Chairman Alfred McKeithan of the State Road Department said such federal designations can be changed and revised to meet recommendations of individual counties.

Gen. Pick estimated the total cost of a program for the valley and related areas at \$43,866,000 of which, he said, the federal share would be \$29,636,000. He added that it is not possible at this time to obtain funds for the work but that it should be considered for authorization in the second phase of the Florida program.

River Valley Project In Second Phase

TALLAHASSEE—Senator Pepper has received support from the U. S. Army Engineers for inclusion of the Kissimmee River Valley in the second phase of the Central and South Florida flood control program.

In a letter made public by the senator's office, Major-General Lewis A. Pick, chief of Army Engineers, said the seriousness of the flood situation in the valley was shown in the "successive flood years of 1947, 1948 and 1949, and warrants consideration by Congress for authorization" of a flood control program.

Gen. Pick estimated the total cost of a program for the valley and related areas at \$43,866,000 of which, he said, the federal share would be \$29,636,000. He added that it is not possible at this time to obtain funds for the work but that it should be considered for authorization in the second phase of the Florida program.

Cinematic Chatter

Sparing no expense in the provision of gorgeous settings and magnificent scenery Hollywood producers have gone all out in the making of the beautiful technicolor picture "Neptune's Daughter," which stars Esther Williams and Red Skelton, with Ricardo Montalban, Betty Garrett, Keenan Wynn and Xavier Cugat and his orchestra featured and a bevy of filmdon's beauties for the ensemble.

This larger package of entertainment comes to the Prince Theatre, Sunday-Monday, and I'm sure it will be a delight to everyone who attends the theatre on those days.

Among some of the song numbers to be introduced are "Cachita", "I Love Those Men," "My Heart Beats Faster," "Jungle Rumba" and the all-time hit "Baby It's Cold Outside." Swim scenes in this picture simply take your breath away. You must see it to appreciate it.

See you at the movies—Mal.

CHURCH OF CHRIST,
SCIENTIST

"CHRISTIAN SCIENCE" is the subject of the Lesson-Sermon which will be read in Churches of Christ, Scientist, throughout the world on Sunday, December 25. The Golden Text is: "Glory to God in the highest, and on earth peace, good will toward men" (Luke 2:14).

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "All nations whom thou hast made shall come and worship before thee, O Lord; and shall glorify thy name. For thou art great, and doest wondrous things: thou art God alone" (Ps. 86:9, 10).

The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "Creeds, doctrines, and human hypotheses do not express Christian Science; much less can they demonstrate it."

"Beyond the frail premises of human beliefs, above the loosening grasp of creeds, the demonstration of Christian Mind-healing stands a revealed and practical Science. It is imperious throughout all ages as Christ's revelation of Truth, of Life, and of Love, which remains inviolate for every man to understand and to practice" (98:12-21).

Circle Enjoys Its Christmas Party

Members of the Simonson-Lair Circle, First Methodist WSCS, enjoyed Christmas party at the home of Mrs. Duncan Padgett Monday night with husbands attending as invited guests.

Poinsettias, Florida holly and red candles were used by Mrs. L. W. Armstrong in decorating the living room of the Padgett home for the affair. On the dining room table, which was covered with a lace cloth, was a lighted scene of "The Nativity."

On the program of entertainment Mrs. R. J. Schroder and Mrs. J. R. York presented a mock radio broadcast. John A. Dulany led the group in the singing of carols, with Mrs. William McClenithan at the piano.

Gifts were exchanged among members and guests and a special gift from the circle was received by the chairman, Mrs. Ruth Mere-
dith.

Mrs. Padgett was assisted with the serving of refreshments to approximately 50 by Mrs. M. P. Holman, Mrs. C. A. Major and Mrs. O. D. Carpenter, co-hostesses.
